French Riviera presents **Entre Amis Trois**, our first online exhibition, bringing together ten international artists working in painting, collage and photography. The third in a series of December exhibitions curated by French Riviera, *Entre Amis* translates as 'Between Friends', a title that conjures new images in our current climate where meeting in person is not as straightforward as it once was.

The works in *Entre Amis Trois* are intimate in nature in terms of scale, materiality and subject matter; domestic still lifes, faces and friendships, and imaginings of distant lands with dreamlike scenes excavated from our collective memory in an era of curtailed travel. What may be perceived as creative limitations can also provide opportunities, allowing us time to re-engage with our art practice and consider ideas anew, as we experience a vital need to reach out and strengthen our connections with one another.

- Artists Samuel Levack and Jennifer Lewandowski opened French Riviera in Bethnal Green, in 2011, as an extension of their longstanding collaboration. The gallery provides a vital exhibition platform for emerging local and international artists, and a collaborative public programme of talks and performances, celebrating the multicultural creative communities of London's East End. levacklewandowski.com
