A Prayer of Progress in the Light, 2022

French Riviera has invited thirteen artists to present new work to raise our spirits and help carry us into Winter. The final exhibition in our current programme, Cosmic Coincidences, is the closing of a chapter, a natural conclusion before the gallery takes a pause, allowing us time for new projects. As we complete another year, we think about endings and how endings bring new beginnings. Winter creates a portal for us to quiet our minds, look within and hibernate, offering a space to contemplate our thoughts and feel for intuition. New insights offer a new direction.

Artists Jennifer Lewandowski and Samuel Levack opened French Riviera in Bethnal Green, in 2011, as an extension of their longstanding artistic collaboration. The gallery has provided a vital exhibition platform for over 250 international artists, alongside a public programme of dinners, performances and talks, celebrating the diverse creative communities of London's East End.
